MDS 9000R is a Self Service kiosk developed to **allow cash recycling and cheques deposit in a simple, secure and quick way**. The kiosk is ergonomically designed with **minimal footprint and attractive design**; it fits ideally into a Bank lobby environment.

Cash management is optimized by recycling functions reducing drastically costs involved in cash handling. The kiosk also provides state of the art cheque deposit functionality as MICR reading, endorsement, front stamp, image scanning and 4 pockets sorting system in a removable and lockable cassette.

The kiosk prints a receipt with transactions data including cash amount and cheque images.
